REBATE APPLICATION
(Customer to fully complete this page only)

Applicant Name: _____

Date: _____

Signature: _____

Day Time Phone No.: _____

Name of Utility (circle one)	Lincoln County Power District No. 1	Alamo Power District No. 3	City of Caliente	Pioche Public Utilities
--	--	-------------------------------	---------------------	----------------------------

Street Address
(where Heating or Cooling Unit is located)

Mailing Address
(where rebate check is mailed)

Type of Rebate Requested (check the box next to the rebate being requested)

New System Being Installed	New System Minimum Efficiency	Rebate	Applying For
Air Source Heat Pump	9.0 HSPF, 15 SEER	\$200	<input type="checkbox"/>
Air Source Heat Pump	9.5 HSPF, 16 SEER	\$400	<input type="checkbox"/>
Ductless Mini Split Air Conditioner and Heat Pump – Single Head (single air handler unit)	9.5 HSPF, 16 SEER	\$400	<input type="checkbox"/>
Ductless Mini Split Air Conditioner and Heat Pump – Multiple Head (multiple air handler units)	9.5 HSPF, 16 SEER	\$800	<input type="checkbox"/>
Central Air Conditioners	15 SEER	\$100	<input type="checkbox"/>
Central Air Conditioners	16 SEER	\$150	<input type="checkbox"/>
Central Air Conditioners	17 SEER	\$200	<input type="checkbox"/>
Evaporative Cooler – Permanently Installed		\$150	<input type="checkbox"/>

Energy Guide Label (attach and check box):

Type of Installation (check one and provide date installed)

New Home Construction: Replacement of Existing Unit: Date Installed: _____

Program Requirements and Limitations

To receive a rebate, representatives of Lincoln County Power District No. 1 must inspect the installation and verify that the unit is connected and operational. Rebates shall be capped at one rebate per location during a 5 year period. Applicants will have six months from date of purchase to apply for rebates. Applications for rebates will be reviewed and approved on the basis of the order in which eligible applications are received. The number of rebates to be issued each year is subject to the program budget limitation set by Lincoln County Power District No. 1. Applications received after funding limits have been reached shall be retained for consideration in the following year. See next page for additional requirements and limitations.

Residential and Commercial
High Efficiency Air Conditioning and Heat Pumps

Lincoln County Power District No. 1
HC 74 - Box 101
Pioche, Nevada 89043
(775) 962-5122 • (888) 649-3814

This program is not available for new multi-unit residential or commercial subdivisions or developments.

The program is available for new construction or for replacement of existing evaporative coolers, room air conditioners, central air conditioners, electric wall heaters, or air source heat pumps.

Rebates will be paid as credits on customer bills for electric service or as cash rebates.

Air Source Heat Pump Qualifications: New air source heat pump must become the primary heat source and must service at least 80 percent of the home's conditioned living space. Heat pump must be a new, air-source split or packaged unitary heat pump with an AHRI (Air Conditioning, Heating, and Refrigeration Institute) Standard Rating Cooling Capacity of 65,000 BTU/hr (5.4 tons) or less. Heat pump must be listed on the AHRI Certified Directory: ahrirectory.org. Heat pump must be Energy Star rated.

Ductless Mini Split Air Conditioner and Heat Pump Qualifications. New ductless heat pump must become the primary heat source and must service at least 80 percent of the home's conditioned living space. Previous primary heat source must have been a permanently installed ductless electric resistance heating system (e.g. electric baseboard, electric ceiling/wall heat) serving at least 80 percent of the home's conditioned area. Rebate is not available to customers replacing an existing ducted heat pump (air or geothermal). Ductless heat pump must be a new AHRI (Air Conditioning, Heating, and Refrigeration Institute) rated ductless (mini-split) system with an AHRI Standard Rating Cooling Capacity of 65,000 BTU/hr (5.4 tons) or less. Unit must be listed on the AHRI Certified Directory: ahrirectory.org. Ductless mini split air conditioner and heat pump must employ an inverter driven outdoor compressor unit and a variable speed fan for indoor blower and be fully ductless. Ductless mini split air conditioner and heat pump must be Energy Star rated.

Central Air Conditioner Qualifications. Central air conditioner must be a new, air source-split system equipment with a matching condensing unit and evaporator coil or packaged unitary air conditioner. SEER determined by AHRI (Air Conditioning, Heating, and Refrigeration Institute) Standard 210/240 and listed in the AHRI Certified Directory of Unitary Equipment: ahrirectory.org. Central air conditioner must have an AHRI Standard Rating Cooling Capacity of 65,000 BTU/hr (5.4 tons) or less. Window air conditioning units, packaged terminal units, and heat pumps are not eligible. Central air conditioner must be Energy Star rated.

Evaporative Cooler Qualifications. Evaporative coolers must be new, with a minimum 2,500 CFM rating. Evaporative cooler must be permanently installed in a window or on a roof. The residence of building being cooled must use evaporative cooling exclusively. The evaporative cooler shall not be installed in conjunction with other cooling equipment. Evaporative cooler must be Energy Star rated.
